EXISTING SYSTEM

Before this website we sell jerseys at our shop near mangalwar peth, Kolhapur. but it was very difficult to reach every football fans in whole india.

Jerseys play important role for fands to show off their spirit about team.

Through Fuel sport shop Website we Can sell Jerseys all over india and make more profit and we become more famous. Using our website peoples or fans can buy their favourite club, national and Player jersey at home.

After Creating this website we reach to more customers and become more famous.

NEEDS AND SCOPE

❖ NEEDS :-

- 1. Improve product information: Add more detailed product descriptions, including material, size, and color options.
- 2. Enhance product offerings: Consider adding more sports-related products to increase the website's appeal.
- 3. Add social media integration: Integrate social media links to increase the website's online presence.

❖ SCOPE :-

- Improve product information: Add more detailed product descriptions, including player names, numbers, and team logos.
- Enhance product offerings: Consider adding more football jerseys from different teams and leagues.
- Conduct user testing: Conduct user testing to identify areas for improvement and optimize the website's user experience for football fans.

PROPOSED SYSTEM

OBJECTIVE

Objectives of Fuel Sports Shop are as follows :

- Increase sales of football jerseys and other related products.
- Improve customer satisfaction through excellent customer service and a user-friendly website.
- Build brand awareness and establish Fuel Sports Shop as a reputable online retailer of football jerseys.
- Increase website traffic through search engine optimization and social media marketing.
- Improve website usability through user testing and feedback.

IMPLEMENTATION

System Requirements

This system uses internet to work . It can run on any browser of any PC or phone.

Hardware Requirements :

- PC

o Hard Disk	:	100 GB
o RAM	:	2.00 GB
o Processor	:	Intel(R) Pentium CPU @ 1.50 GHz
o System type	:	32, 64 bit
o Operating System	:	Windows 7 +

Software Requirements :

o Front End : HTML, CSS, Java Script

o Back End : No use Back-End

o Browser : Chrome, Microsoft Edge, Interenet Explorer etc.

CONCLUSION & SUGGESTION

Conclusion

The Fuel Sports Shop football jersey store website has the potential to become a leading online retailer of football jerseys. By focusing on improving product information, implementing customer reviews, enhancing product offerings, and optimizing for SEO, the website can increase sales, improve customer satisfaction.

Limitations

Website design and functionality: The website's design and functionality may not be optimized for all devices or browsers.

Payment processing: The website's payment processing system may not be secure or reliable.

Inventory management: The website's inventory management system may not be able to accurately track stock levels.

Competition: The website may face competition from other online retailers of football jerseys.

Market trends: The website may be affected by changes in market trends, such as shifts in consumer demand or preferences.

Seasonal fluctuations: The website may experience seasonal fluctuations in sales, with higher sales during peak football seasons.

Customer service: The website's customer service may not be able to respond to all customer inquiries or concerns in a timely manner.

Suggestion

1. **Responsive design:** Ensure the website has a responsive design to provide a seamless user experience across different devices.

2. **Clear product information:** Provide clear and detailed product information, including player names, numbers, and team logos.

3. **Customer reviews:** Allow customers to leave reviews and ratings for products to increase trust and credibility.

4. **Secure payment processing:** Ensure the website has a secure payment processing system to protect customer transactions.

5. **Social media marketing:** Utilize social media platforms to promote the website and engage with customers.

6. **Email marketing:** Build an email list and send regular newsletters to subscribers with promotions, updates, and news.

7. **Search engine optimization:** Optimize the website for search engines to increase visibility and drive traffic.
